

Free Continuing Education Webinar:

Reducing infection in the outpatient dialysis facility – Results of the Standardizing Care to Improve Outcomes in Pediatric End stage renal disease (SCOPE) Collaborative

SCOPE is a Quality Transformation Network for dialysis centers serving children aiming to:

- Improve patient outcomes
- Support collaborating pediatric nephrology centers
- Enable physicians to meet the ABP Part IV MOC requirements, and
- Generate new knowledge and evidence-based clinical practices in the pediatric nephrology population

Featured speakers include:

- **Alicia Neu, MD;** Professor of Pediatrics and Division Director for Pediatric Nephrology, Johns Hopkins University School of Medicine
- **Brad Warady, MD;** Senior Associate Chair for the Department of Pediatrics, Children's Mercy Kansas City; Professor of Pediatrics, University of Missouri-Kansas City School of Medicine

Don't miss this **FREE** webinar with continuing education hosted by CDC's [Making Dialysis Safer Coalition](#)
